

PATRICK FROILAN S. DEL AYRE

Calumpit, Bulacan, Philippines | 09495635655
patrickdelayre30@gmail.com | github.com/Natoy0123

Full-Stack Developer and Senior BS Information Technology student specializing in modern web platforms, native Android applications, geospatial telemetry, and interactive game architecture. Seeking an internship or junior developer role to engineer dependable, high-impact software solutions.

EDUCATIONAL BACKGROUND

Bulacan State University - Hagonoy Campus 2022 - 2027
(Current)
Bachelor of Science in Information Technology (BSIT 4A-G1)

TECHNICAL SKILLS

- **Development:** Full-Stack Web Development (React 19, Node.js, Express), Native Android App Development (Java, CameraX, ZXing QR)
- **Programming & Scripting:** Java, JavaScript (ES6+), C# (Unity 6), SQL, Python, HTML5, CSS3
- **Database Management:** Database Design & Normalization (1NF-3NF), MongoDB & Mongoose, MySQL, PostgreSQL
- **Geospatial & Telemetry:** Leaflet.js, MapLibre SDK, GeoJSON Polygon Corridors, InSAR Subsidence Modeling, GPS Geofencing
- **Security & Architecture:** JWT Authentication, OTP Verification, bcrypt Password Hashing, REST API Bridge Pipelines, Server-Sent Events (SSE)
- **Project Management:** Agile/Scrum Methodologies, Jira, Trello, GitHub Issue Tracking, Technical Documentation
- **Tools & Environments:** Android Studio, Unity Engine, Visual Studio Code, Git, GitHub, Playwright E2E Testing, Windows & Linux
- **Tools and IT Support:** Version Control (Git), Debugging and Troubleshooting, Printer Troubleshooting

CORE COMPETENCIES

- Full-Stack Web & Mobile Architecture
- Real-World Problem Solving & Technical Debugging
- Systems Analysis & Database Design
- Cross-Platform Data Synchronization & APIs
- Clean Code Principles & Technical Documentation
- Adaptability, Team Collaboration & Agile Execution

ACADEMIC PROJECTS

YTO Express — Admin & Dispatch Web Portal (Capstone 1 & 2)
• Technologies: React 19, Vite, Tailwind CSS, Node.js, Express, MongoDB, Leaflet GIS, SSE (2025-2027)
YTO Express — Courier, Seller & Tracking Mobile App (Capstone 1 & 2)
• Technologies: Native Java Android, MapLibre SDK, CameraX, ZXing QR, 20m Geofencing (2025-2027)
Hagonoy GroundWatch — Civic Subsidence GIS Telemetry Platform
• Technologies: React 19, Leaflet.js, InSAR Geodesy, 26-Barangay Corridors, Playwright E2E (2026)
Slime Food Drop — 120 FPS Unity 2D Mobile Arcade Game
• Technologies: Unity 6 (6000.3.0f1), C#, Android SDK, IL2CPP ARM64, 2D Physics (2026)
